

**ZO® Skin Health, Inc. Products  
Nut Allergy Potential**

To the best of our knowledge, the products listed below, may contain residuals of the following nut proteins that could lead to a sensitivity or possible allergic reactions. It should be noted that these ingredients have not been confirmed as having a nut allergy potential.

The following products contain Prunus Amygdalus Dulcis (Sweet Almond) Oleosomes:

- Retinol Skin Brightener 1%
- Retinol Skin Brightener 0.5%
- Retinol Skin Brightener 0.25%
- Brightalive
- Radical Night Repair

The following products contain Plukenetia Volubilis Seed Oil:

- Instant Pore Refiner
- Radical Night Repair

While our other products that we offer are not known to contain any potential nut allergens, due to our use of third party manufactures and laboratories, ZO Skin Health, Inc. cannot guarantee that the products, formulations, or components have not come into contact or have been cross-contaminated with potential nut allergens. Due to this, if you have concern to believe that any one of our products may trigger a sensitivity or allergic reaction, we recommend conducting a skin patch test to determine any potential sensitivity.
